SUMMARY

Experienced QA engineer with a strong passion for testing & enhancing software quality. Quick to adapt to new technologies, tools, & methodologies, ensuring efficient, reliable, and high-quality software delivery.

WORK EXPERIENCE (1.8 YRS)

Company Name: M2P Fintech.

21 May 2026 - Present

Designation: SDET1

Roles & Responsibilities

- Working as an **SDET** at **M2P Fintech**, handling **manual and automation testing** for the **Collect** application across both **Mobile (APK)** and **Web** platforms.
- Validated end-to-end **collection workflows** across roles such as **Collector, Telecaller, Collection Manager, Area Manager, Lender Admin, and Super Admin**, ensuring accurate loan follow-ups, **SMS notifications**, and field operations.
- Designed and implemented **hybrid automation frameworks (POM-based)** for **mobile automation** using **Appium with Python** and for **web automation** using **Python and Playwright**.
- Performed **API testing** using **Postman** for the **Collect** application, validating request-response contracts, business rules, and backend integrations, with prior exposure to the **LMS module**.

Company Name: Focus Edumatics Pvt Ltd, Bengaluru.

03 Jan 2024 - 25 Jan 2025

Designation: Quality Assurance

Roles & Responsibilities

- Owned **end-to-end QA delivery** in an **Agile Scrum environment**, contributing across **SDLC and STLC** with a strong focus on quality, scalability, and timely releases.
- Developed **automation-first testing solutions** using **Python, Playwright, Selenium, and Pytest (POM)**, covering **UI, regression, smoke, and functional testing** for complex, role-based applications.
- Automated **Data Warehouse validation pipelines** using **Prefect**, ensuring **data integrity, reliable reporting, improved test coverage, and proactive defect management**.
